

GAIA IMPACT FUND IS A VENTURE CAPITAL FUND DEDICATED TO ENERGY ACCESS

- 1. Catalytic corporate equity:** We support renewable energy deployment through an atypical and catalytic lens: by supporting entrepreneurs in their corporate equity needs to build a longstanding footprint in their core markets.
- 2. Tailor-made support:** Investment is only a first step. We establish long-term working relationships with our partner companies. We bring deliverables-oriented strategic, financial & operational expertise when needed.
- 3. Data-driven demand estimation & projections:** We push for data-driven, bottom-up market approaches bringing a deep and structured understanding of the local populations' needs.
